I was born in Misugi Town in Tsu-City. Misugi Town has a population of about 5000 and now has a problem of aging population and depopulation. My friend says only negative things about Misugi. "I wish there was a Jusco shopping mall, a movie theater, and a penny arcade." But I don't think so. Because Misugi where I live has many wonderful places which big cities don't have.

A few years ago, people noticed how charming Misugi is. They finally came and made a film and many famous actors were in it. The title of the movie is "Wood Job!". A friend and my homeroom teacher appear in the movie. The teacher has appeared wearing a loincloth.

Finally, I'd like to tell you about the warmth of the people of Misugi. I'm one of only 43 middle school students in Misugi. So people in this area always say to us, "You are the treasure of this town", and they make us feel important. They always give me fresh vegetables from the area and good venison to me. When it's deep-fried, the venison has the taste like a pork fillet cutlet and is very delicious. Venison is used in luxury French food Givier. Everyone in Misugi is like very important family for me. I think Misugi is needed more than ever as the place which people in urban areas can escape to. Wouldn't it be nice to be away from the noise of the city and to get rid of stress? JR Meishou line was restored recently and it will take you to Misugi while you enjoy looking at the pretty scenery. I want you to come and see cherry blossoms in Mitake, one of the 100 famous places in Japan to observe cherry blossoms. And I also recommend the garden in Kitabatake Shrine. Of course, please eat good food at Misugi and enjoy talking with the people of my town. I'd like to protect Misugi like a warm family surrounded by this abundant nature from now on too. Moreover, I would like to send this goodwill of wonderful Misugi to everyone around Japan.

⑤テーマを選んだ理由

美杉町は地域の方々がとても親切で、自然も豊かで空気もおいしい。学校の生徒数は少ないけど、その分仲が良くて、それぞれの絆も固く、兄弟みたいな関係です。そして、そのことを美杉を知らない方々に知って欲しくて、このテーマを選びました。
