

Digital Guide Sheet

Casting Forging	Stamping	Metalworking	Die	Resin	Electrical Electronic	Rubber	Prototype	Jig Tool	Equipment	Surface treatment	Others	
	◎		○				○					
Company name ITO SEISAKUSHO CO., LTD.						Industry / Market segment Metal parts stamping and assembly						
Company representative Sumio Ito						Location 101, Hironaga-cho, Yokkaichi-shi, Mie 512-8061						
Capital		50 million yen				Annual sales		4,000 million yen				
No. of employees		130				Certification		ISO9001, Eco Stage 2				
Business outline /Products Design and manufacture of progressive dies Precision stamping of pressed parts (various terminals, bus bars, brackets, stays, etc.)						Customers / Suppliers Sumitomo Wiring Systems, Ltd., NTN Corporation, Denso Corporation, Toyota Industries Corporation, and other automobile-related companies						
Overseas office		Philippines (Calamba City) Indonesia (Bekasi)				Overseas transaction		Yes				
Selling points												
1) Integrated processes, from design and manufacture of progressive dies to stamping of pressed parts, are conducted in-house. 2) CAE analysis is used for review from the prototyping stage in order to make VE proposals to improve the yield rate and productivity.												
Technology / Product details												
 <p style="text-align: center;">HEV/EV-related parts</p>						 <p style="text-align: center;">CAE analysis</p>						
 <p style="text-align: center;">Precision shearing technology with minimized shear droop and rupture and superior surface roughness</p>						 <p style="text-align: center;">Plate forging technology to form three dimensional shape by increasing or decreasing the material plate thickness</p>						
Main equipment												
Automatic press: 100 units, including Aida 600-ton press (PMX-6000)												
Cleaning machine: 2 units including Cleanvy (FVH2-4050V2RCV)												
Machining center: 5 units, Wire cut EDM: 8 units, Surface grinder: 5 units, etc.
