					◎							
Company name Ginga Electric Co., Ltd						Industry / Market segment Electric devices						
Company representative Keiichi Goto						Location 6 Takamatsu, Kawagoe-cho, Mie-gun, Mie 510-8121						
Capital			10 million yen			Annual sales			2,000 million yen			
No. of employees			100			Certification			ISO 9001			
Business outline /Products DC brushless motor, AC motor Electric actuator, Winding assembly In-wheel motor						Customers / Suppliers Housing material makers Railway equipment makers						
Overseas office			Nanjing City, China			Overseas transaction			Yes			
Selling points												
<p>1. We can meet various requests for motors by providing fully custom-made products.</p> <p>2. We provide high-quality products supported by technological capabilities cultivated through 70 years of history.</p>												
Technology / Product details												
<p>In-wheel motors are attracting attention in the automobile industry now. We successfully made a prototype of an in-wheel motor that can be utilized for transfer machines and nursing equipment.</p> <p>We produce various motors to reflect our customers' requests.</p>												
						<p>We also produce high-speed motors used for machine tools and electric drills! Our strength is to find out the truly necessary specifications through close communications with the customer, leading to creation of a new product.</p>						
Main equipment												
Automatic winding machine: 21 units, NC machine: 6 units, Torque measuring instrument: 5 units Robot processing machine: 4 units, Balancing machine: 1 unit, Automatic assembly line: 1 line, etc.
