Company name						Industry / Market segment					
YUTAKASEISAKUSYO INC						Metal products					
Company representative						Location					
Eiji Kawamura						441, Takamatsu, Kawagoe-cho, Mie-gun, Mie, 510-8121					
Capital			6 million yen			Annual sales					
No. of employees			9			Certification					
Business outline / Products						Customers / Suppliers					
Shafts for motors, transmissions, and reducers Various parts for transformers, etc.						Toshiba Corporation Mie Toshiba Industrial Products and Systems Corporation Sumitomo Heavy Industries, Ltd.					
Overseas office						Overseas transaction					
Selling points											
We can offer an in-house integrated production system (mainly shaft parts), from material procurement to finishing product. We can provide a stable supply of high-quality products with short delivery times.											
Technology / Product details											
1. We have slotters, which enable us to machine inner diameter holes and cut keyways after grooving at the bottom of inner diameter holes.											
											
2. We can handle large products using a large NC lathe (Okuma's LB45 III) with a 15 inch chuck and a distance of 1000 mm between centers.											
											
Main equipment											
7 NC lathes, 3 machining centers, 3 slotters, 2 cylindrical grinders, 1 surface grinder, 2 keyway cutters, 1 radial drilling machine, 7 bench drills, 2 general-purpose lathes, 5 general-purpose millers, and 1 centering machine
